DNR.....608.266.2111
Direct any questions regarding disposal of Cathode Ray Tubes (CRTs) to DNR - CRTs are glass vacuum tubes that
function as the video display component of some electronic devices. They are commonly found in older style, non-
flat panel televisions and computer monitors. They may also be found in some of the following types of electronic
devices: medical, automotive, oscilloscope, appliance, and military control towers.

Propane Cylinders – Contact the following website for information regarding releasing pressure on EMPTY -
Coleman® Propane Cylinders. Coleman® has patents pending on a new industry-changing development called
the Green Key® tool that will allow consumers to durably mark the propane cylinder as empty for steel recyclers.
